# Driving value for you and your students

## Supporting duty of care

We recognise that living in a new environment can bring many challenges that can be difficult to overcome. An adequate insurance provision demonstrates an understanding of potential exposures to help mitigate risks.

The cover is automatic for all residents, which provides an affordable and accessible way for students to be insured during their stay.

## Providing peace of mind

We understand that the loss of key valuables can cause a student wider difficulties beyond just a financial loss.

Tenant liability protection is included with all policies. You will have peace of mind that fittings and fixtures are protected all year round.

## Supporting a market standard proposition

Group possessions insurance is now a standard benefit across universities and accommodation providers, more private accommodation providers are aligning their proposition with student expectations.

This cover enhances your proposition and protects your residents against real risks that could otherwise have a negative impact on their experience when living in your accommodation.
